NATIONAL BALLOT ISSUES (continued)		
Select a Statement with which you most agree – EDUCATION	Votes Cast	Percent of Votes Cast
Our most important educational priorities should be to expand financial aid for college students and double the number of federally-funded work-study jobs over the next five years.	3,293	52.67%
The current federal student lending system, under which the Department of Education makes loans directly to students, should be changed. Individuals should be responsible for funding their own education.	478	7.65%
We should put more emphasis on school choice options such as charter schools, school-voucher programs for public and private schools, and home schooling as an alternative to mandating that students continue to attend underperforming schools in the traditional public school system.	1,398	22.36%
We should work with local schools to implement reforms that reward teachers with merit pay based on student achievement measured in a given year compared to the previous year.	1,083	17.32%
Total	6,252	100.00%

Select a Statement with which you most agree – ENERGY	Votes Cast	Percent of Votes Cast
We should empower states to control all forms of energy development and production on all lands within their borders, excluding areas that are specifically designated off-limits.	592	9.62%
We should invest in clean, renewable sources of energy, especially solar and wind-power.	4,312	70.03%
We should expand regulatory cooperation with Canada and Mexico and institute fast-track approval processes for cross-border pipelines and other infrastructure, starting with approving the Keystone XL pipeline.	604	9.81%
We should focus on energy efficiency, along with increasing prices and taxes to decrease use of fossil fuels.	649	10.54%
Total	6,157	100.00%

Select a Statement with which you most agree – HEALTH INSURANCE	Votes Cast	Percent of Votes Cast
All Americans should be required to have health insurance, either through an employer or by paying for it themselves.	1,098	17.70%
The federal government should not require that all Americans have health insurance.	920	14.83%
Universal health care coverage means more affordable premiums and lower costs because people will focus more on preventive care and avoid expensive emergency care. Americans have the right to health insurance and protections from abusive practices by insurance companies.	3,327	53.64%
Universal health care amounts to government control of individuals' rights, government interference in the economy, and huge costs. The individual states should set their own policies regarding the uninsured, those with chronic conditions, and with regard to Medicaid.	857	13.82%
Total	6,202	100.00%
