| NATIONAL BALLOT ISSUES (continued) | | |
|---|-------------------|------------------------------|
| Select a Statement with which you most agree – EDUCATION | Votes Cast | Percent of Votes Cast |
| Our most important educational priorities should be to expand financial aid for college students and double the number of federally-funded work-study jobs over the next five years. | 4,123 | 53.39% |
| The current federal student lending system, under which the Department of Education makes loans directly to students, should be changed. Individuals should be responsible for funding their own education. | 551 | 7.13% |
| We should put more emphasis on school choice options such as charter schools, school-voucher programs for public and private schools, and home schooling as an alternative to mandating that students continue to attend underperforming schools in the traditional public school system. | 1,689 | 21.87% |
| We should work with local schools to implement reforms that reward teachers with merit pay based on student achievement measured in a given year compared to the previous year. | 1,360 | 17.61% |

| Total | 7,549 | 100.00% |

| Select a Statement with which you most agree – HEALTH INSURANCE | Votes Cast | Percent of Votes Cast |
|---|-------------------|------------------------------|
| All Americans should be required to have health insurance, either through an employer or by paying for it themselves. | 1,412 | 18.36% |
| The federal government should not require that all Americans have health insurance. | 1,117 | 14.53% |
| Universal health care coverage means more affordable premiums and lower costs because people will focus more on preventive care and avoid expensive emergency care. Americans have the right to health insurance and protections from abusive practices by insurance companies. | 4,115 | 53.52% |
| Universal health care amounts to government control of individuals' rights, government interference in the economy, and huge costs. The individual states should set their own policies regarding the uninsured, those with chronic conditions, and with regard to Medicaid. | 1,045 | 13.59% |
