Due to the limited reporting capabilities of the county voter registration databases and constant updates to registration data, the party breakouts are less than the vote type totals and these totals cannot be perfectly matched to the Official Turnout Results on silverstateelections.nv.gov

*Carson City - the Early Voting and Election Day totals are higher than the party breakouts for both vote types because the total includes 546 same-day registrations that were not classified by party

*Douglas - the Early Voting and Election Day totals are higher than the party breakouts for both vote types because the total includes 455 same-day registrations that were not classified by party

*Esmeralda - Mail and In-Person party breakouts are less than the voting type totals because Esmeralda has not yet provided a final report

*Nye - the Election Day Total is higher than the party breakouts due to the difficulty in recording same-day registrants.

*Storey - the Election Day party breakout is lower than the Election Day total due to the difficulty in recording same-day registrants.

*Washoe - the Election Day party breakout is lower than the Election Day total due to the difficulty in recording same-day registrants.

*White Pine - the number of Early Voters on this table is higher than the "Early Voting Turnout" pdf because this table includes the same-day registrants
